**PICNIC TO-DAY.**—The Gold Hill Miners' Union will have their second annual picnic to-day. They have selected the Bowers Mansion as the place of their junketing. The Gold Hill News mentioning this picnic says: The following valuable prizes, which have been on exhibition in Virginia for some time past, will be offered by the Union: First, archery—a valuable gold arrow for the best shot by a lady; second—a beautiful medal for the best target shot in the Sarsfield Guard; third—a handsome prize base ball bat, open to all base ball clubs in the State. By special invitation the Sarsfield Guard, of Gold Hill, will act as escort of the day. The train will leave Virginia at 7:45 in the morning, stopping at Gold Hill, Silver City switch, Carson and intermediate points for excursionists. Returning trains will leave the grounds at 5 p. m. A special car for the conveyance of lunch baskets, will be attached to the train, and all parties wishing their lunch baskets taken care of should have them properly labeled and at the Gold Hill and Virginia depots by 7 o'clock in the morning.

They had a garden-roller at work on the west entrance walk to the Capitol yesterday, but it made no more impression than trundling a hoop over a potato field till Stewart himself got aboard the sulky, when two trips flattened it down as level as a bowling alley. Solid man that Stewart.

The alarm of fire yesterday afternoon was caused by the careless firing of fox tail grass near General Clarke's residence. No harm done. The firemen were promptly on hand.

The Old and New Court House Question.

The other day, in commenting upon the action of Mr. County Commissioner Gillson in purchasing the Keyser & Elrod bay yard and offering the same to the county at cost, we made incidental reference to the impropriety, in a general sense, of County Commissioners doing business or taking contracts or performing other things which come in the line of county wants and public supplies and repairs. We thought we worded what we had to say clearly enough to let any who might read it understand that we not only did not disapprove of what Mr. Gillson had done, but that we thought he had acted wisely. Also we intended to convey the idea that in our judgment the Board would act wisely and for the best interests of the county were they to accept Mr. Gillson's offer. We have not the remotest suspicion that there is any "job" in this business. We are informed (not by Mr. Gillson nor any one speaking for him, but by an outsider), that the purchase or binding of the bargain to purchase, was done openly and almost in public, and that the terms, the trade, the object of the negotiation, and all, were broached, made and discussed as matters having a bearing on the affairs of the County. In other words, when Mr. Gillson proposed to buy the Keyser & Elrod property, he stated, distinctly, that he wanted to secure the land for the county—if the county wanted it, and if not, that he would pay for it and keep it as his own. And that is just the way the matter stands now. Gillson is bound to purchase and Keyser & Elrod are bound to sell that block of land. The price is fixed, and the county can get it at that price, if the Commissioners say so. The hitch is, that the Commissioners—Meder and Morris—are dumb. They make no answer to Mr. Gillson's son's proffer of the property at cost. Now we understand that the present County Building and land can be sold for upwards of \$20,000. Probably it would fetch \$25,000, or more. It is the unfittest of all places for a jail, and for a County House and a place of deposit of the county archives the most incommensurable that could be selected. The want of the county is a new Court House and jail and a jail yard. The Keyser & Elrod block is admirably situated for the purpose, being central and amply large. We suggest, as a plan to prompt the Board to action, the circulating of a petition among the taxpayers of the county. Let the question be submitted to the people, somehow.

A newly married couple went into a drug store and asked for soda water. The clerk inquired what syrup they would have in it, when the swain, leaning over the counter, replied, "Stranger money is no object to me; put sugar in it."—Exchange.

Since our gifted friend Fife, (Piccola would be a better name, considering his dimensions), went to the Lake to enjoy the salubrity of that delightful place of recreation, our world-renowned fountain has lost a shade of its attractiveness. To be sure the soda is as sparkling and fuzzy-guzzy as ever and just as cool as in the earlier and purer days of the Republic, but what movement in life can progress with so much of elasticity and vigor without as with the sperrit stirring Fife? We pause for a reply. Secondly, under the peaceful reign of Mr. Fife what rustic swain would dare to mention sugar in his'n? If Mister Fife ever deserves special mention for any one thing, it is for the due preservation of the dignity of his station as fountaineer. Had he been present the mistake in the quantities of wintergreen in our'n would not have been perpetrated the other day. As well infiltrate one's body with a dose of Lamb-kill and done with it. We await the return of Fife with eagerness. His shrill notes will be welcome to the ear of parched and thirsty humanity, and the fountain will again become the cynosure of all discriminating eyes.

**A WORD TO CONNOISSEURS IN DRESS.**—From time to time these weeks past we have heralded the approach of Mr. Geo. W. Mathews, Tailor, of 170 State street, Chicago, who was coming hither on pleasure and business bent. We mentioned incidentally that Mr. Mathews was at the head of his profession in Chicago. We can further state with truth and justice, that he is recognized in New York city as the very foremost tailor in the United States. He arrived here yesterday morning, and with him is Mr. W. A. Prior, the first haberdasher in Chicago. These gentlemen have taken Room Five at the Ormsby House, and may be seen there during business hours from now until one week from to-day, the 14th inst. Mr. Mathews will show specimens of the choicest cloths for gentlemen's wear and receive orders for the same. Mr. Prior will display samples of the very finest kinds of gentlemen's shirts and underwear and take orders for the same. Are we sufficiently explicit? Room Five (5) at the Ormsby House, till next Saturday.

**OSBISTON DEFEATED.**—The Gold Hill News of last evening has the following from the pigeon shooting match in San Francisco: The pigeon shooting match between Frank Osbiston, Superintendent of the Savage mine, and A. Maitland, of Virginia City, yesterday, was won by Maitland, the score standing on single shooting, Osbiston 15, Maitland 14. On double shooting Osbiston 21, Maitland 24. It is estimated that between twenty and thirty thousand dollars changed hands on the match. Osbiston was the favorite before the match.

**THE FENCE** for Capitol Square is hauled upon the ground and is ready for the skill of the cunning worker in iron and brimstone. We understand that the Vulcanous hand of our sturdy friend Torreyson will have the responsible handling of the same. It's he can do it and do it according to Gunter.
